

# HYMAX<sup>®</sup> Versa

## Stainless Steel Wrap-Around Coupling (18" and 24")

These new additions to the HYMAX Versa product line provide water and wastewater utilities the ability to permanently repair larger circumferential or longitudinal cracks on pipes, to maintain the continuity of the pipe system, retain the line contents under internal pressure, and prevent infiltration under vacuum.

### Overview

Seal larger longitudinal splits, circumferential breaks, as well as leaks and cracks on a pipe

Designed to connect wider gaps between pipes with the same or differing outside diameters, or repair holes and cracks - without compromising continuity and infrastructure integrity

Stainless-steel top-facing bolts and hardware protect the coupling against galling and corrosion

### Key Benefits

- **Reduce time on the job** with the wraparound design, top-facing bolts, and lightweight construction; enabling quick and easy repairs, and pipe connections.
- **Replace failed multi-bolt couplings** without additional digging or cutting of pipes helps prevent excavation-related damages.
- **Hybrid coupling-repair clamp** at an 18" or 24" length that accommodates larger pipe coverage area.
- **Wider working tolerance** covers a variety of pipe materials, and pipe sizes reducing the need additional inventory.
- **Engineered with stainless steel hardware** with molecular anti-galling for enhanced corrosion protection and up to 3° dynamic deflection for system longevity.
- **Extra peace of mind** of up to 5 years warranty upon successful product registration with HYMAX Asset Installer application.
